The Defence and Security Industry Association of the Czech Republic

Defence and Security Industry Association of the Czech Republic (DSIA) associates Czech companies engaged in research, development, production, trade and marketing of the military and security equipment, material and services. It was founded in 1997 as a non-governmental, independent, apolitical, non-profit organization. Since its foundation it is a respected partner of the Czech Government, the Ministries of Industry and Trade, Defence, Interior and Foreign Affairs. With these institutions the DSIA signed a series of cooperation agreements.

It became an important partner and participant in the legislative processes. DSIA promotes business and commercial interests of its members in a dialogue with the Parliament, ministries, other government authorities. DSIA is a primary contact point for similar foreign institutions. It helps foreign firms to find suitable partners and vice-versa it helps the Czech firms to contact appropriate companies abroad.

DSIA supports pro-export efforts of its member companies and helps them to look for new markets. It also participates in shaping of the national pro-export policy and supports export interests of the DSIA members towards the state administration.

One of the DSIA tasks is to negotiate the state or EU support of main specialized domestic and foreign fairs. It helps the exhibitors to administrate the state support, to negotiate better prices and to boost their PR activities. DSIA actively supports research and development interests of the member companies and helps them to create specialized groups for complex solutions to meet specific tasks.

The Association became an indispensable intermediary for domestic and international cooperation. It provides exchange of information concerning tenders, supplies and demands between state organizations and the industry. The membership in the Aerospace and Defence Industries Association of Europe (ASD) and cooperation with the European Defence Agency (EDA) allows the DSIA to be a part of discussions concerning future of the European defence and security in-

dustry. It is engaged in the NIAG (NATO Industrial Advisory Group) activities. It also cooperates with NSPA (NATO Support Agency) and is active in programs like AEW&C, AGS and others. DSIA also organized training courses for member companies, using the EU funding. The programs included the area of quality, standardization and cataloging in the security sector and defence industry.

The Association cooperates with the publishing house MS Line on publishing a magazine called the Czech Defence Industry and Security Review which is a media platform for the Czech defence and security industry.

Asociace obranného a bezpečnostního průmyslu ČR

Asociace obranného a bezpečnostního průmyslu České republiky (AOBP) sdružuje firmy zabývající se výzkumem, vývojem, výrobou, obchodem a marketingem s obrannou a bezpečnostní technikou, materiálem a službami. Je nevládní, nezávislou, nepolitickou, neziskovou a neobchodní organizací, která byla založena v roce 1997. Již od svého založení je respektovaným a uznávaným partnerem vlády České republiky, ministerstev průmyslu a obchodu, obrany, vnitra a zahraničních věcí, s nimiž má podepsanu řadu dohod o spolupráci. AOBP se stala i důležitým partnerem a účastníkem legislativních procesů.

Asociace prosazuje podnikatelské a obchodní zájmy svých členů v dialogu s Parlamentem, ministerstvy a ostatními orgány státní správy. Diskusí u „kulatého stolu“ či osobními jednáními s představiteli státní administrativy a zákonodárné moci se podílí na řešení problematiky českého obranně-bezpečnostního průmyslu jako celku. AOBP je základním kontaktním místem pro obdobné zahraniční instituce a pomáhá firmám z celého světa hledat v České republice vhodné partnery. Obdobně pak slouží českých výrobcům při vyhledávání zahraničních společností vhodných pro průmyslovou spolupráci.

Podporuje úsilí firem českého obranného a bezpečnostního průmyslu pronikat na zahraniční trhy. V rámci svého postavení se podílí na proexportní politice České republiky a snaží se působit na orgány státní správy při prosazování exportních zájmů svých členů.

Asociace prosazuje zařazení hlavních specializovaných veletrhů v tuzemsku i zahraničí do seznamu akcí se státní nebo unijní podporou, pomáhá vystavujícím členům se zajištěním čerpání příslušné státní podpory, jedná o cenách, pomáhá s administrací a s publicitou a propagací. Asociace se aktivně podílí na podpoře výzkumných a vývojových aktivit členských podniků a napomáhá vytváření specializovaných skupin pro komplexní řešení jednotlivých úkolů.

Asociace se stala nepostradatelným zprostředkovatelem spolupráce na domácí a mezinárodní půdě. Zajišťuje výměnu

informací o tendrech, veřejných zakázkách, nabídkách a poptávkách mezi státními institucemi a průmyslem. V rámci členství v Evropské asociaci leteckého a obranného průmyslu (ASD) a činnosti v Evropské obranné agentuře (EDA) je AOBP zapojena do unijního dění. V NATO se AOBP angažuje v rámci Poradní skupiny pro průmysl (NIAG) a spolupracuje s agenturou NSPA. Dále se podílí na konkrétních programech jako AEW & C, AGS a dalších. AOBP je také aktivní v oblasti vzdělávání, kde za pomoci evropských fondů organizovala školení v oblasti jakosti, standardizace a katalogizace v bezpečnostním sektoru a obranném průmyslu. Rovněž realizovala vzdělávací projekt ke zvýšení konkurenceschopnosti českého obranného a bezpečnostního průmyslu.

Asociace spolupracuje s vydavatelstvím MS Line na vydávání časopisu Czech Defence Industry & Security Review, jenž je mediální platformou českého obranného a bezpečnostního průmyslu.

Presentation of member companies

ADHOG Advertising s.r.o.

*ADDRESS: Za Poříčskou bránou 21,
186 00 Praha 8*

PHONE: 224 829 138

E-MAIL: marek.bor@adhog.eu

WEBSITE: www.adhog.eu

MAIN ACTIVITIES:

ADHOG ADVERTISING Advertising Agency knows how to promote and develop your brand or product by seeking and finding successful (sometimes perhaps non-conventional ones) advertising solutions. The Agency's philosophy is: to achieve great results, the idea is much more important than the amount of funds expended. Clearly said: creativity for the benefit of the brand! The scope of the Agency's services is broad, exactly corresponding with the meaning of the expression full service. Proposals and creating of advertising campaigns, conceptions of marketing and communication strategies, recording of radio and television commercials, creative and production organisation of promotions, all print production works, PR services, web pages, advertising events, and tastings. Simply said, anything what can push your brand up to the top, and once it is already there, safely maintain its position. Unilever Europe, AVG Technologies CZ, Robert Half International, Charouz Group, Walmark, Mero ČR, a.s., AutoŠtangl, Pribina - Bongrain, Podravka, Pinko. – the companies already using the Agency's services to their satisfaction.

AERO TRADE a.s.

Československá exportní spol. s r.o.

ADDRESS: Jenečská 223/26, 161 00 Praha 6

PHONE: +420 220 562 022

FAX: +420 220 562 023

E-MAIL: benet@csea.cz

WEBSITE: www.tkc-as.cz

MAIN ACTIVITIES:

Československá exportní (CZEX) was founded in 2004 as a subsidiary of TKC joint stock company. TKC has been active in the civil aviation business since 1995 on both Czech and foreign aerospace markets, providing business and technical solutions to a wide scope of clients.

While TKC's business focus has been on the civilian aviation market, CZEX holds full licence for arms trade (Pursuant to Act. 38/1994 Coll., Arms Trade Act) for numerous countries on four continents.

Major advantage we hold over competitors is a profound experience and knowledge of technical issues. Roman Sorejs, founder of both TKC and CZEX, graduated from Kiev Aviation Institute in 1987 and since that time has been involved in aerospace business.

CZEX adheres to strict legislative arms trade regulations and upholds best business practices, believing that high integrity and transparency is the best investment in long term business growth.

We will continue in our ultimate pursuit: Achieving excellence.

DICOM, spol. s r.o.

- Microwave and IF parts
- MTI, MTD signal processors
- DVAZ (Radar video recorder/loggers)

ERA a.s.

*ADDRESS: Průmyslová 387, 530 03 Pardubice
PHONE: +420 467 004 253, 466 670 698
FAX: +420 467 004 555
E-MAIL: info@era.aero
WEBSITE: www.era.aero*

MAIN ACTIVITIES:

ERA a.s. is world leader in passive surveillance radar systems and supplier of next-generation surveillance and flight tracking solutions for the air traffic management, military, security and airport operations markets. ERA is able to produce its products in own production line as well as ship them and install on the site on the commercial base. ERA runs its own R&D programs on the innovations of existing Time Difference Of Arrival (TDOA) multi-lateration (in both – civil and military applications) and on Automated Depend Surveillance - Broadcast (ADS-B). ERA offers the unique Passive ESM (Electronic Support Measures) Tracker (PET) VERA-NG – ideal for advanced border protection in covert mode. ERA covers by internal resources future multiposition radar technologies: Passive Coherent Location (PCL) and Multistatic Primary Surveillance Radar (MSPSR).

EuroNet.CZ, spol. s r.o.

*ADDRESS: Holečkova 907/47, 150 00 Prague 5
PHONE: +420 257 313 246
FAX: +420 257 313 247
E-MAIL: info@euronet.cz
WEBSITE: www.euronet.cz*

MAIN ACTIVITIES:

One of our main activities is the production of reports and news broadcasts for radio and television or internet media. It spans from searching for the theme, through editorial and production preparation, to the shooting and postproduction process. A production of video documents of congresses, conferences and similar events from social, cultural, sports or corporate life. After all, we are a company coming from the heart of Europe - the Czech Republic.

Another major activity is comprehensive services in the field of Public Relations. A small example: We prepare a press conference. We ensure the participation of journalists, create a video and an audio recording of a press conference, and we distribute the footage to media. Does this not suffice? Do you need a partner that can handle large events for thousands of visitors?

Try us. In all modesty, we're simply good!

OPTOKON, a.s.

ADDRESS: Červený Kříž 250, 586 01 Jihlava
 PHONE: +420 564 040 111
 FAX: +420 564 040 134
 E-MAIL: optokon@optokon.cz
 WEBSITE: www.optokon.cz

MAIN ACTIVITIES:

FIBER OPTIC SOLUTIONS

OPTOKON a.s., a leading global designer and manufacturer of fiber optic network solutions specializes in the production of military tactical components for use in harsh environmental conditions. OPTOKON currently supplies the military forces of more than 20 countries with high quality military tactical components using unique Expanded Beam technology. Series components include:

- Expanded Beam and ferrule technology MIL-DTL-83526 optical connectors
- Hybrid Fiber & Copper connectors
- Tactical cable with optical fibers
- Ruggedized media converters
- Ruggedized field switches
- Light ruggedized field switches/switchboards
- Cable drums for various cable lengths, storage and handling

These ruggedized optical components were designed and implemented for use in NATO armed forces in response to the demand for an interconnect system that can successfully group terminations in a harsh environment. The components have successfully passed military testing and supplier approval for both NATO (Supplier code: 1583G) and non NATO nations. These innovative devices are used for installation of mobile commands with field LANs to ensure data communications at remote observer stations, for LAN field installations in crisis situations and for installation headquarters for expeditionary troops. The devices fully comply with STANAG 4290 requirements and all military standards for components used in harsh environmental conditions. In addition to proving their unique and unassailable properties within European military deployment, OPTOKON military tactical components have also demonstrated their full operational range in desert applications in the Middle East, in the Far East and within military applications and security systems in India, Vietnam and Japan. OPTOKON ruggedized fiber optic components can also be found fully deployed within heavy industry and petrochemical, mining and broadcasting optical networks.

OPTOKON, a.s. is a major leader in the new professional section of the Defence Industry Association "C4/digitization of the battlefield". The C4/digitization of the battlefield along with tactical systems covers the entire command and control section at a tactical level and these specialized sections are worthy of a professional partner in the modernization of the activities of the Army of the Czech Republic. In OPTOKON, a.s. is located the presentation, training and testing centre of the Defence Industry Association.

FAX: +420 224 218 312, +420 224 235 033
E-MAIL: info@natoexhibition.org
WEBSITE: www.natoexhibition.org

MAIN ACTIVITIES:

International exhibition of the latest and future defence & security technologies held biennially in Prague. The philosophy behind FF is in compliance with the principal objectives and actual core tasks of the NATO and allied countries across the globe, namely the Connected Forces Initiative, Smart Defence, lessons learned from the latest operations, and facing future crises.

- 12 - 15 October 2016, PRAGUE

- Advanced and future technologies in defence & security – Land, Air, Sea, Cyberspace
- Gathering place for military, government, industry, academia and R&D leaders across the globe
- B2B and B2G meetings, wide networking programme
- International experts and businessmen focused on soldier protection, equipment, training and simulation; CBRN Defence & Protection; Logistics; C4I; Weaponry; Unmanned, Autonomous and Automated Systems & Robotics
- Current issues related to soldiers, Special Operation Forces, Police, Private Military Companies, Security Agents and Guards, Integrated Emergency Management System, Procurement and armament programmes, emerging technologies and business opportunities, lessons learned from operations and exercises
- National and international organisations and institutions (NATO HQ, SACT, SHAPE, NSA, NAAG, NIAG, NSPA, NATO COEs, EDA, EUROPOL, INTERPOL, FBI, UN, AFCEA, IAEA, and other)
- International workshops, a conference, panel discussions and seminars
- Indoor and outdoor live demonstration areas
- National expositions and pavilions
- Tailored & Off-the-Shelf Packages for exhibitors
- International professional media pool
- UNESCO World Heritage Site

První brněnská strojírna Velká Bíteš, a. s.

FAX: +420 485 100 616
E-MAIL: sales@spm-liberec.com
WEBSITE: www.spm-liberec.com

MAIN ACTIVITIES:

- Comprehensive technical development, design, manufacture, testing and service resources of military outfit equipment for army, security agencies and police
- Production of 3 types of Modular Load-Carrying Systems, Ballistic Panel Carriers, Tactical and Ballistic Vests, Backpacks etc.
- Used materials of the highest technical parameters and quality – strength, endurance and camouflage according to the latest trends. Especially we use materials like plastic buckles, edgings and straps with infra-red remissions
- We are able to process all the technical materials (polyester, polyamide, non-flammable and special composite materials) for the production of special equipment and techniques in the fields: special military equipment, ballistic systems including ballistic protection, parachute equipment, anti-chemical protection equipment and sewn products for rescue and medical units
- Long-lasting experience in the field of sewing and development
- Product with emphasis on maximum finish quality – long durability and reliability
- We have implemented hydration system into our MLCS compatible with Camelbak company

Saab Technologies s.r.o.

SAAB

ADDRESS: Sokolovská 79/192, 186 00 Prague 8
PHONE: +420 234 703 811
FAX: +420 234 703 822
E-MAIL: info@saabczech.cz
WEBSITE: www.saabczech.cz

MAIN ACTIVITIES:

Saab serves the global market with world-leading products, services and solutions from military defence to civil security. With operations on every continent, Saab continuously develops, adapts and improves new technology to meet customers' changing needs.

Saab is organised in five business areas: Aeronautics, Dynamics, Electronic Defence Systems, Security and Defence Solutions, Support and Services. Each business area is defined based on the products, solutions and services it provides.

Aeronautics offers advanced airborne systems, related subsystems, Unmanned Aerial Systems (UAS), aerostructures and services to defence customers and commercial aerospace industries worldwide. Aeronautics is also responsible for development, production, marketing, selling and supporting of the Gripen fighter.

Dynamics offers ground combat weapons, missile systems, torpedoes, sensor systems, unmanned underwater vehicles and signature management systems for armed forces as well as remotely operated vehicles and security systems for the offshore industry and nuclear power plants.

Electronic Defence Systems have created a unique competence in the area of radar and electronic warfare, and a product portfolio covering airborne, landbased and naval radar, electronic support measures and self-protection systems.

Security and Defence Solutions offers C4ISR systems, Airborne Early Warning System, Civil Security systems and solutions, Training and simulation, as well as Telecom carrier and power solutions.

Support and Services offers Integrated Support Solutions, Maintenance, Logistics and Technical Support, Field Facilities and Regional Aircraft Support.

Sellier & Bellot a.s.

Sellier & Bellot 

ADDRESS: Lidická 667, 258 13 Vlašim
PHONE: +420 317 891 111
FAX: +420 317 892 489
E-MAIL: info@sellier-bellot.cz
WEBSITE: www.sellier-bellot.cz

MAIN ACTIVITIES:

The company Sellier & Bellot belongs among the oldest companies in the shooting and defense industry. Advanced technology throughout all operations guarantees quality of product portfolio, which includes production of ammunition for pistols and revolvers, rifles, shotguns and rimfires for hunting and sporting purposes. Integral parts of the assortment are products for Law Enforcement and military applications. Quality management establishes ISO 9001 and military standards accompanied by variety of specific certifications. Focus on research and development brings number of innovations like NONTOX primer mixture, lead-free projectiles or infra-red tracer bullets.

SILK & PROGRESS, spol. s r.o.

WEBSITE: www.silkandprogress.cz*

MAIN ACTIVITIES:

Manufacturer of special fabrics industrial textiles designed for production of:

- uniforms for special conditions from polyester fabrics with nano membrane
- equipment and accessories for army, police and other defending branches
- functional wear for uniformed groups and branches
- superior parachutes for most demanding customers emergency and reserve parachutes
- deceleration parachutes

SINTEX, a.s.

*ADDRESS: Moravská 1078, 560 02 Česká Třebová
PHONE: +420 465 569 975
FAX: +420 465 532 175
E-MAIL: info@sintex.cz
WEBSITE: www.sintex.cz*

MAIN ACTIVITIES:

SINTEX, a.s. is a Czech company engaged in textile production at all production levels, ie. From yarn production, manufacturing knitwear and fabrics to finished articles of clothing. Apart from purely production programs and activities remains a key area of the company as well as research and development, together with accredited textile laboratory.

STAP a.s.

*ADDRESS: Vilémov u Šluknova 103,
407 80 Vilémov u Šluknova
PHONE: +420 412 315 500
FAX: +420 412 315 506
E-MAIL: info@stap.cz, WEBSITE: www.stap.cz*

MAIN ACTIVITIES:

STAP a.s. – narrow fabrics manufacturer produces webbings, elastic tapes, cords, woven labels and badges, hook and loop fasteners and other tapes. The webbings can be one-coloured or with stripes, with simple patterns and inscriptions, with woven-in reflex tapes, with anti-skid rubber, with woven-in wire or in variable widths. The following finishes can be applied: fire retardant, water repellent, soil repellent, antibacterial, mildew proof, non-abrasive, antistatic etc.

We are able to print the webbings not with customers' logos only, but with camouflage patterns as well, suitable for any army (including the values of IR reflection).

Thanks to our technology, we are able to cut webbings into individual pieces in such a way that their ends may not fray (ultrasonic cutting), including punching of holes of varied shapes and diameters, application of poppers and last but not least, varied types of confection (sewing the straps with a snap-hook or a clasp – collars, leads, fastening sets, safety components...).

MAIN ACTIVITIES:

- Spare parts and overhauls of land military vehicles
- Military vehicles, armored and artillery systems
- Aircraft and helicopters including spare parts and overhauls
- Ammunition
- Firearms
- Ecological liquidation of military ammunition

OUR OFFER:

- T-55, T-72, BMP-1 and D-30 spare parts
- T-72M1, T-55, RM-70, BMP-1, D-30
- Mi- 8/17/24 and L-39
- 7,62x39mm, 7,62x54mm, 100mm, 122mm, TB-7V
- AKM, CZ Mod. 58, PKT, DShK,

The most of the offered goods on the stock.

Since 1994 STV GROUP a.s. has belonged to the most important companies operating in the European defence equipment market. The company is settled in Prague having its business premises and subsidiaries located strategically not only across the Czech Republic but also in other countries.

SVITAP J.H.J. spol. s r.o.

*ADDRESS: Kijevská 8, 568 02 Svitavy
PHONE: +420 461 568 148
FAX: +420 461 568 300
E-MAIL: svitap@svitap.cz
WEBSITE: www.svitap.cz*

MAIN ACTIVITIES:

The company SVITAP J.H.J. spol. s.r.o. is a Czech textile company with an almost 150 years of tradition. Our products portfolio focuses mostly on producing and supplying technical textiles and technical confection. Our sales are handled by six divisions.

Our company is the producer and supplier of the most important component for equipment production – the fabrics. We are able to provide our textiles with the necessary modifications and we are also able to provide the fabric with the printing according to the most strict parameters of required values of spectral (remission) curves.

Apart from the production of military clothing textile we are ranked among the world's producers of humanitarian and military tents. We are also the leading long-established Czech producer of halls. We produce and assembler prefabricated halls, warehouses, covered riding halls, sports halls and various other types of roof constructions.

SVOS, spol. s r.o.

ADDRESS: Chrudimská 1663, 535 01 Přelouč
PHONE: +420 466 955 743
FAX: +420 466 955 742
E-MAIL: svos@armsvos.cz
WEBSITE: www.armsvos.cz

MAIN ACTIVITIES:

SVOS company offers wide range of armoured vehicles. Customers can select from abroad spectrum of vehicles that would be the most suitable solution for their safety and security.

SVOS production contains:

Special Purpose Armoured Vehicles for army and police:

- Armoured Personnel Carrier
- Armoured Ambulance
- Armoured Anti-riot vehicle
- Armoured rocket carrier
- Light Armoured Patrol Vehicles
- Armour Trucks
- Armoured heavy-duty Cross-Country vehicle

Civilian armoured vehicles:

- Armoured Limousines
- Armoured Cross Country Vehicles
- Armoured carrier for prisoners
- Armoured Cash-in-transit vehicle

SVS FEM s.r.o.

ADDRESS: Škrochova 3886/42, 615 00 Brno
PHONE: +420 543 254 554
FAX: +420 543 254 556
E-MAIL: info@svsfem.cz
WEBSITE: www.svsfem.cz

MAIN ACTIVITIES:

SVS FEM s.r.o. is more than 23 years of experiences with numerical simulations.

Some of the main interests in defense industry are:

Simulation of a ballistic protection

Simulation of a blast protection

Simulation of drop tests

Simulation of complete armored vehicles and their subassemblies

Simulation of explosions

As the ANSYS competence center SVS FEM s.r.o. provides all related services such as seminars, support, consulting and customization in addition to software sales.

Proud holder of ISO 9001 (Lloyd/Nr.C-71404 in Nov.2004) and ISO 27001 certificate and member of engineering alliances namely: Technet Alliance, European Nuclear Society and NAFEMS partner.

SWORDFISH s.r.o.

FAX: +420 270 004 640,
E-MAIL: service@sword-fish.cz
WEBSITE: www.group-cos.com

MAIN ACTIVITIES:

- Chartering, rail, road, air and sea freight forwarding
- Transport of containers and conventional cargoes
- Special and IMO transports
- Shipping and transport consulting

We are a member of Czechoslovak Ocean Shipping Group.

T-CZ, a.s.

ADDRESS: Na Strži 28, 140 00 Praha 4
PHONE: +420 466 034 501
FAX: +420 466 034 503
E-MAIL: info@tcz.cz
WEBSITE: www.tcz.cz

MAIN ACTIVITIES:

Currently, the company has been focusing and further developing its activities in the branches of RADIOLOCATION and RADIOCOMMUNICATION technology. In these areas, T-CZ offers to its customers comprehensive services that are of highest professional standards.

RADIOLOCATION branch covers the deliveries of Surveillance and Precision Approach Radar systems on turnkey basis, modernization of Airport Radar systems and other related activities, like Waveguides or Antennas production.

RADIOCOMMUNICATION branch includes the development and production of base and vehicle Radiostations and their integration into Radio systems. Important part of this branch is formed also by wide range of vehicle, base and special Antennas.

ENGINEERING PRODUCTION is the complementary production branch used for production of T-CZ's radiocommunication and radiolocation products and for customer's manufacturing as per customer's demand up to surface finishing of the parts.

TATRA TRUCKS a.s.

ADDRESS: Areál Tatry 1450/1, 742 21 Kopřivnice
PHONE: +420 556 491 111
FAX: +420 556 492 672
E-MAIL: defence@tatra.cz
WEBSITE: www.tatratrucks.com

MAIN ACTIVITIES:

Production of high mobility, heavy duty all-wheel-drive off-road trucks and chassis. TATRA is well-known for its original concept of chassis with a central backbone tube and independent suspension of half axles.

Main features:

- extremely high twist and bending resistance
- protection of the drive line by the backbone tube
- high speed and quick pass over obstacles in a rough terrain
- low transfer of vibrations for crew and sensitive loads
- exceptional off-road and cross-country mobility
- exceptional ability of adaptation in extreme weather conditions
- 4x4, 6x6, 8x8, 10x10, 12x12 modular drive configuration
- suitable for different kinds of special superstructures

TATRA trucks are operated mostly as cargo trucks, troop and shelter carriers, hook loaders, container carriers, tank trucks and recovery vehicles. TATRA chassis are suitable also for tactical superstructures like rocket carriers, radar systems, howitzers or multi-purposed armoured wheeled vehicles.

TENEO 3000 s.r.o.

ADDRESS: Hlavní 986, 468 41 Smržovka
PHONE: +420 483 394 985
FAX: +420 483 394 145
E-MAIL: j.jakoubek@teneo.cz,
WEBSITE: www.teneo.cz

MAIN ACTIVITIES:

TENEO 3000 s.r.o. is an independent medium-sized business based in the Czech Republic, focusing on mass production of connectors and connector parts.

We design and manufacture our own product range – electric connectors featuring high mechanical resilience and reliability essential e.g. for military orders. Individual types and their detailed characteristics can be found in the e-catalogue on our site.

Additionally, we supply individual components according to the technical description and requirements by our clients, the majority of who also operate in the electrical engineering industry. We are able to cover very broad scope of machined parts orders, ranging from small series of complex workpieces to millions of parts produced by automated lines.

Recently, the range of our services was bolstered by complete deliveries of cable rolls, offering added value to our customers.

TENEO 3000 s.r.o is a global business with clients in Europe, America and Asia. Our occupation encompasses primarily production, but also business activities. We are predominantly export-oriented, utilizing the talent, potential and ingenuity of our Czech team.

WEBSITE: www.variel.cz

MAIN ACTIVITIES:

- Research, development, designing, engineering and manufacturing of military containers for special purposes (such as sanitary cabins, cabins for patients, catering and food distribution points, drinking water reservoirs, septic tanks, refrigerators cabins, store cabins, laboratory cabins, office cabins, accommodation cabins, expandable containers, ballistic and NBC bullet proof army containers, medical points, surgery points, field hospitals etc.)

The company holds ČSN EN ISO 9001, ČSN EN ISO 14001, ČSN OHSAS 18001 and ČOS 051622 (AQAP 2110) standard certificates.

The company holds ČSN EN 15085-2 and ČSN EN ISO 3834-2 welding certificates.

The company is accredited for manufacturing and repairs of ISO 1 containers, as well as for ISO 1 container testing (with respect to ČSN ISO 1496-1 standard)

Veletrhy Brno, a.s. (BVV Trade Fairs Brno) - IDET 2015

*ADDRESS: BVV Trade Fairs Brno
Výstaviště 1, 647 00 Brno*
PHONE: +420 541 152 944
FAX: +420 541 153 044
E-MAIL: idet@bvvcz, WEBSITE: www.idet.cz

MAIN ACTIVITIES:

IDET 2015 - 13th International Defence and Security Technologies Fair, Brno - Czech Republic, May 19.-21. 2015

- a prestigious show of defence and security technologies in a new NATO area
- held under the auspices of official institutions of the Czech Republic
- held concurrently with the PYROS/ISSET International Fire Fighting Equipment, Security Technology and Services Fair and INTERPROTEC International Fair for Personal Protective Equipment, Health and Safety at Work
- international supporting

VIAVIS a.s.

ADDRESS: Obránců Míru 237/35, 703 00 Ostrava
PHONE: +420 595 174 250, +420 604 297 782
FAX: +420 595 174 251
E-MAIL: obchod@viavis.cz
WEBSITE: www.viavis.cz

MAIN ACTIVITIES:

VIAVIS a.s. is an independent expert and consulting corporation focused on comprehensive protection of information. We deal mainly in industry, finance, energy and healthcare.

Our three basic services are:

- Information security – our security experts provide solutions of security problems and consultation on the comprehensive protection of information, personal data, know-how, privacy and property.
- Education - educational programs aimed at increasing safety awareness and skills, especially for employees
- Consultation - services to reduce risk of selection, purchasing and deployment information system

Vojenský technický ústav, s.p. (Military Technical Institute, s.e.)

ADDRESS: Mladoboleslavská 944, 197 06 Praha 9
 PHONE: +420 222 282 702
 FAX: +420 284 817 086
 E-MAIL: info@vtusp.cz
 WEBSITE: www.vtusp.cz

MAIN ACTIVITIES:

The Military Technical Institute, s. e., offers its services in the field of defence research and development, innovation, prototype production, stand-alone and small-batch production and testing.

Research and Development

- Defence research and development project solution in the area of military techniques, aviation engineering, safety technique, C2, CIS, NEC capability implementation support, simulation and trainer technology, cyber technology, security technology
- Weapons and weapon systems, reconnaissance means and systems, security, aiming and surveillance systems, ammunition and explosives
- Workshop vehicles, trucks superstructures, antenna carriers, filter-ventilation appliance, power supplies, illuminative resources
- Geographical and hydro-meteorological service mobile resources
- Expert activity in groups of NATO
- Expert collaboration with universities, research institutions, industry, and external partners

Prototypes, stand-alone and small-batch production

- Special buildings in different types of vehicles, containers, aircrafts and stationary equipments
- Production communication and information modules, command and control sites, reconnaissance assets and systems, ammunition and components for them, optical and optoelectronic elements of recon and weapon systems
- Decomposition of ammunition, ammo elements and rockets
- Warranty and post-warranty servicing of own products

Testing

- Accredited testing laboratories
- Testing of weapons, ammunition, optoelectronics, ballistic endurance, rescue equipment and parachute equipment
- Evaluation of flight data
- Advisory and expert services

Vojenský výzkumný ústav, s.p.

ADDRESS: Veslařská 230, 637 00 Brno
 PHONE: +420 543 562 101
 FAX: +420 543 562 100
 E-MAIL: vvu@vvubrno.cz
 WEBSITE: www.vvubrno.cz

MAIN ACTIVITIES:

Research and Experimental Development especially in favour of national defence and security in areas of technical science related to higher-order innovations of namely ground technologies, materials and logistics in following areas of technical competence:

- Chemical Biological Radiological and Nuclear Defence and other branches related to CBRN Protection of Troops;
- Technology of Sensors, Electronic Warfare and Cyber Defence, Camouflage, Concealment and Deception;
- Special Metallic and Non-metallic Materials, Technology of Surface Protection, Quality Systems and Logistic Technologies.

VOP CZ, s.p.

*ADDRESS: Dukelská 102,
742 42 Šenov u Nového Jičína
PHONE: +420 556 783 201
E-MAIL: vop@vop.cz
WEBSITE: www.vop.cz*

MAIN ACTIVITIES:

Research, development, modernization, production, repairs, testing, service, tracked and wheeled vehicles, armour technique, vintage equipment, reconnaissance and surveillance systems, grand robotic systems, NBC protection means, safety technique, 3D scanner, command systems and diagnostics, special superstructures, engineering equipments.

VOP Dolní Bousov, spol.s.r.o.

*ADDRESS: Tovární 785, 29404 Dolní Bousov
PHONE: +420 326 396 250
FAX: +420 326 396 250
E-MAIL: vop@vop-db.cz
WEBSITE: www.vop-db.cz*

MAIN ACTIVITIES:

In the area of security the main focus of the production programme is on flood protection. The company VOP Dolní Bousov offers a comprehensive solution in flood protection, be it in the area of planning (flood plans, digital flood plans, monitoring and warning, and notifying the population) or in its specific means of flood protection by using composite mobile flood protection barriers. The company offers original solutions for the protection of the population and their settlements, as well as solutions for the protection of entire territorial units and industrial compounds.

The company produces also special security multipurpose barriers (defending barbs) for the security of buildings (military and civilian) within rendition of services.

VOP GROUP, s.r.o., Český Těšín

*ADDRESS: Lípová 1128, 737 01 Český Těšín
PHONE: +420 558 765 230
FAX: +420 558 711 163
E-MAIL: vopgroup@vopgroup.cz
WEBSITE: www.vopgroup.cz*

MAIN ACTIVITIES:

- development, production, modernization, installation and inbuilding of equipment, repairs and service support of army connecting and communication technology to mobile vehicles and stationary workstations
- repairs and service of HF communication
- production of electronic and electrotechnic equipment
- engineering production, locksmith production and production of switchboards
- production of diesel aggregates 24 V, up to 250 A
- car repair service and tire repair service
- the company has been certificated in accordance with ČSN EN ISO 9001:2008, ČSN EN 14001:2004 and ČOS 051622 (AQAP 2110)

VR Group, a.s.

ADDRESS: Tiskařská 270/8, 108 00 Praha 10 - Malešice
 PHONE: +420 296 505 736
 FAX: +420 296 505 752
 E-MAIL: vrg@vrg.cz
 WEBSITE: www.vrg.eu

MAIN ACTIVITIES:

Design and realizing complex training and educational systems pursuant to individual goals and needs of a client.

System integration and implementation of advanced technologies for modelling and simulation, including development and production of simulators and their components.

Technical support and assistance for operation of simulation facilities. Major portion of the production of company VR Group, a.s. in the Czech Republic focuses on supporting training of the Army of the Czech Republic. Holder of the certificates ISO 9001:2000 and AQAP 2110.

Holder of certification NSA under reference 000641 for „Confidential“ level.

Výzkumný ústav stavebních hmot, a.s.

ADDRESS: Hněvkovského 30/65, 617 00 Brno
 PHONE: +420 513 036 090
 FAX: +420 543 216 029
 E-MAIL: vustah@vustah.cz
 WEBSITE: www.vustah.cz

MAIN ACTIVITIES:

RESEARCH INSTITUTE FOR BUILDING MATERIALS (VUSTAH) is Czech research and development organisation working more than 65 years in a sphere of building materials and related problematic covering also the research in field of blast and ballistic protection.

Research institute's activities are focused on research, development and production of both inorganic and organic bonded materials such as concretes, aerated concretes, blast wave absorbing materials, laminates. All these materials and systems can be tailored to customer's requirements.

We are coordinator of the Centre of advanced materials and technologies for protection and safety enhancement. Within the centre we:

- develop new advanced materials for application in blast and ballistic protection and use them for novel solutions for security of citizens, critical infrastructure and for defence industry
- offer our knowledge and expertise for consulting services
- offer services of our laboratory of analytical chemistry, ecotoxicology, physical chemistry, technology and radionuclides
- provide numerical simulation tests for fast dynamic phenomena
- provide blast and ballistic tests
- provide workshops and trainings to expand the knowledge and expertise in defence and security industry

Our production in field of blast protection:

- explosion resistant litter bins for several levels of blast load – certified products
- explosion resistant transport container

ZENIT, spol. s r.o.

ADDRESS: Radlická 138, 150 21 Prague 5
PHONE: +420 234 707 079
FAX: +420 234 707 089
E-MAIL: let@zenit.cz
WEBSITE: www.zenit.cz

MAIN ACTIVITIES:

- specialization on helicopters W-3A Sokol
- spare parts for aviation technics
- service, repairs and helicopters revisions arranging
- new aviation systems development support and cooperation:
 - Air-condition for helicopters Mi-17/171
 - Ground Power Unit for helicopters, especially for Mi-17/171, Mi-24/35

ZEVETA Bojkovice, a.s.

ADDRESS: Tovární 532, 687 71 Bojkovice
PHONE: +420 572 612 111
FAX: +420 572 641 426
E-MAIL: zeveta@zeveta.cz
WEBSITE: www.zeveta.eu

MAIN ACTIVITIES:

- universal hand grenade-two function URG-86
- smoke grenades DGO-1, DGO-3, DG-81
- signal cartridge 26.5 mm
- jamming cartridge 26.5 mm
- jamming cartridge 1 x 1" and 1 x 2" - Flare
- friction igniter
- delaboration of munition
- signal and illumination munition
- hand grenades, reactive anti-tank grenades
- smoke protection of equipment and personnel
- strike means
- imitation means
- testing
- defusing, liquidation of munition

Export realization of the military material from the Czech Republic within the years 2008 - 2013 (in € thousands)

Country/year	2013	2012	2011	2010	2009
Africa	19 168	22 745	22 660	10 808	17 156
Asia	66 162	60 266	38 254	49 734	44 180
Middle East	59 576	24 194	18 827	35 664	17 129
EU	88 736	108 890	73 553	86 553	70 823
Other European countries	16 512	15 313	14 024	18 525	6 758

Structure of the Defence Industry in the Czech Republic

- 1) Aviation and associated equipment
- 2) Systems of command
- 3) Navigation and radiolocation systems
- 4) Armoured and other vehicles, their equipment
- 5) Weapons, fire control systems, ammunition
- 6) Engineering, chemical and health equipment
- 7) Research, development, repair and training
- 8) Equipment and appliances for security services
- 9) Trade and other activities

NOTES
